

## PhD Positions

A PhD position is available at the Department of Epileptology, University Hospital Bonn in collaboration with the Center for Economics and Neuroscience, University of Bonn and the German Sport University in Cologne, Germany. The position will be available June 1st for a period of 2 years within a BMBF-funded research project with the possibility for extension.

We are looking for a PhD student (50% of the normal work load) within a project investigating the effects of different sport interventions on the development of cognitive decline and brain plasticity.

The ideal candidate will be a highly motivated, team-oriented graduate with a strong interest in neuroimaging and cognitive neuroscience. Experience with MRI, programming skills, cognitive neuroscience, psychology is advantageous. Candidates should hold a diploma or a master's degree in cognitive neuroscience, psychology, or a related subject.

We offer supportive mentoring and a well-equipped laboratory including two MRI scanners (1.5T and 3T) as well as close collaborations with different departments in psychology, nutrition research and experimental economics.

Salary will be according to the German salary scale TV-L EG13. The University Hospital of Bonn is an equal opportunity employer. Preference will be given to suitably qualified female applicants or handicapped people, all other considerations being equal.

The position is restricted to a two-year period.

Questions concerning the project can be addressed to Bernd Weber.  
Applications by email only can be sent to [bernd.weber@ukb.uni-bonn.de](mailto:bernd.weber@ukb.uni-bonn.de)
