

POST-DOCTORAL POSITION AT PENN STATE

A post-doctoral research position is available in the laboratory of Marc P. Kaufman, PhD. in the Heart and Vascular Institute at the Penn State College of Medicine. The training will focus on animal models of neural control of the cardiovascular system during exercise. Particular attention will be paid to the exercise pressor reflex in both health and disease. This position offers a highly competitive salary, benefits, and an outstanding research environment. Applicants with an interest in integrative, cardiovascular, electrophysiology or exercise physiology are encouraged to bid on job #55926 at <http://psu.jobs/Search/Opportunities.html>.
